## **Saxton Keitt @socalypsecanbefar**

Saxton has been a part of the OMC family nearly since its inception. He started as a camper and eventually transitioned to a coach. In the summer of 2020, we were challenged with hosting our first ever Virtual Camp. I, being the head coach of the R&B room, had to tap into the minds of these campers every year but this would be the first time doing so virtually. We met on the "Blue Jeans" meeting app for the first time and discussed the possible topics for OMC 2.0. The campers decided on "Love". I asked what type of feel they wanted and they quickly answered,

“Jhenè Aiko”. I put together a simple chord progression that we could build on to create this type of Neo-Soul meets Hip-Hop Vibe. The talent and creativity of these young singer/songwriters was the easiest part of the puzzle. After they recorded their parts through an app we used called “Soundtrap”, I was able to export the audio files to be mixed and mastered by Isaac Gibson and Remastered by Reese Soul. This is how we Show Love at OMC; Music.
